

NEWLY IMPLEMENTED OFFICE MEMBERSHIP PLAN

For those patients without dental coverage, we have created an **In Office Membership Plan** to help with your treatment. Included in the annual membership fee you will receive your routine cleanings, exams and yearly x-rays, be it a full series of x-rays or annual check- up x-rays that are due. Fluoride is included for children 16 and under. In addition, you will receive a significant discount on all treatment performed in our office. The plan will be effective for a 12 month enrollment period, not a calendar year, and there is no YEARLY MAXIMUM, DEDUCTIBLE or LIMITS. (Take home whitening is not included).

Now, with the convenience of controlled cost and knowledgeable staff, high quality dental care is more affordable and accessible than ever. You can now have restorative procedures completed that you have previously put off for financial reasons, or even your routine cleaning and check-up you may be overdue for. Your smile can be restored to its optimal form and function, promoting healthy gums and keep your own teeth for the foreseeable future.

Call the office now and ask about the in Office Membership Plan and how we can help you.
